A S S E S M E N T

Dear Candidate,

I hope this message finds you well. I wanted to let you know that you have been assigned a task as part of your whole interview process. You are now at second stage of the interview process.

Task: Design a User Interface for an **Inventory Management System**.

Requirements:

1. Create these following pages:
   a. Login page.
   b. Landing page(put all the required information).
   c. Add Product page(with all product information).
   d. Product detail page.
   e. Generate Bill Page.

2. The user interface should be visually appealing, easy to navigate, and intuitive to use.

3. The user interface should be responsive and work well on desktop and mobile devices.

4. Deliver It within Two days.

Note: You are free to use any design tools or software of your choice to complete the task. Please provide detailed annotations for your wireframes and design prototype to explain the functionality and interactions of the user interface, and complete it within the timeframe.
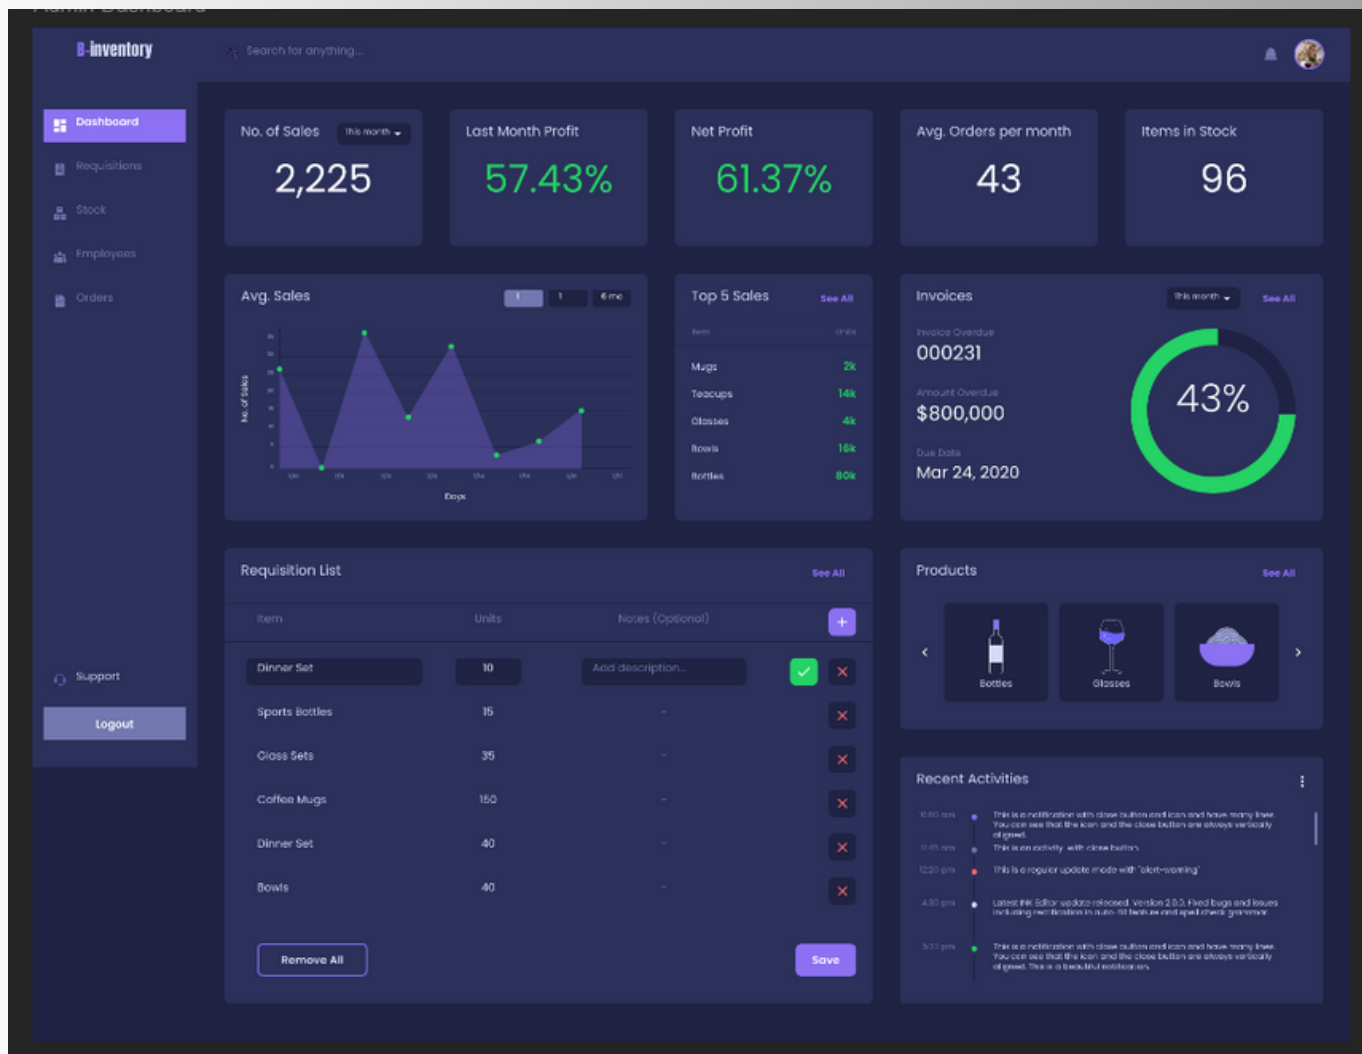

How to submit: After completing the task , please send it to our official mail address "info@onlinehoja.in" and write your contact details too.
